| PS-1                 | I am a temple devotee        | Book a darshan ticket before visiting the          | I cannot easily find available slots or complete     | The traditional booking process is manual, time-                    | Frustrated, stressed, and worried that I may                     |
| PS-2                 | I am a temple administrator. | Efficiently manage temple bookings, darshan slots, | I have to maintain records manually and manage large | There is no centralized digital system to automate booking and slot | Overwhelmed, inefficient, and concerned about providing a smooth |

## Summary

### Customer

- Temple Devotees
- Temple Administrators

### Main Problems

- Long waiting queues.
- Manual ticket booking process.
- Lack of real-time slot availability.
- Difficulty managing large numbers of devotees.
- No centralized booking management system.

### Proposed Solution

**DarshanEase** provides a secure online platform where devotees can register, log in, view available temples and darshan slots, and book tickets in advance. Administrators can efficiently manage bookings, temples, users, and slot availability through a dedicated dashboard, reducing manual effort and improving customer satisfaction.

## Conclusion

The identified customer problem statements clearly highlight the challenges faced by both devotees and temple administrators. These insights guided the development of **DarshanEase – Temple Darshan Ticket Booking System**, ensuring that the solution effectively addresses real-world problems through a secure, scalable, and user-friendly online booking platform.
