Empathy Map Canvas

User Persona

Primary User: Temple Devotee

Age Group: 18–65 Years

Occupation: Students, Employees, Business Professionals, Senior Citizens, Families, Pilgrims

Goal: To book temple darshan tickets quickly, securely, and conveniently without waiting in long queues.

Empathy Map

SAYS	THINKS
"I want to book my darshan ticket before reaching the temple."	"Will I get a darshan slot on my preferred date?"
"The booking process should be simple."	"I hope I don't have to stand in long queues."
"I need accurate information about temple timings."	"Is the booking website secure?"
"I want to receive instant booking confirmation."	"Can I manage my bookings easily?"
DOES	FEELS
Searches for temples online.	Happy when booking is completed successfully.
Registers and logs into the application.	Frustrated by long waiting queues at temples.
Selects available darshan slots.	Confident when payment and booking are successful.
Books tickets and checks booking history.	Satisfied with a smooth online booking experience.
Uses mobile or desktop to access the application.	Relieved after receiving instant booking confirmation.

Customer Needs

- Simple registration and login process.
- Easy-to-use interface.
- Real-time darshan slot availability.
- Secure online booking.
- Fast confirmation of bookings.
- Mobile-friendly application.
- Ability to manage booking history.
- Reliable and secure platform.

Customer Pain Points

- Long waiting queues at temples.
- Manual ticket booking process.
- Limited slot availability.
- Difficulty finding accurate temple information.
- Time-consuming booking procedures.
- Lack of centralized booking platform.
- Overcrowding during festivals.
- No easy way to manage bookings.

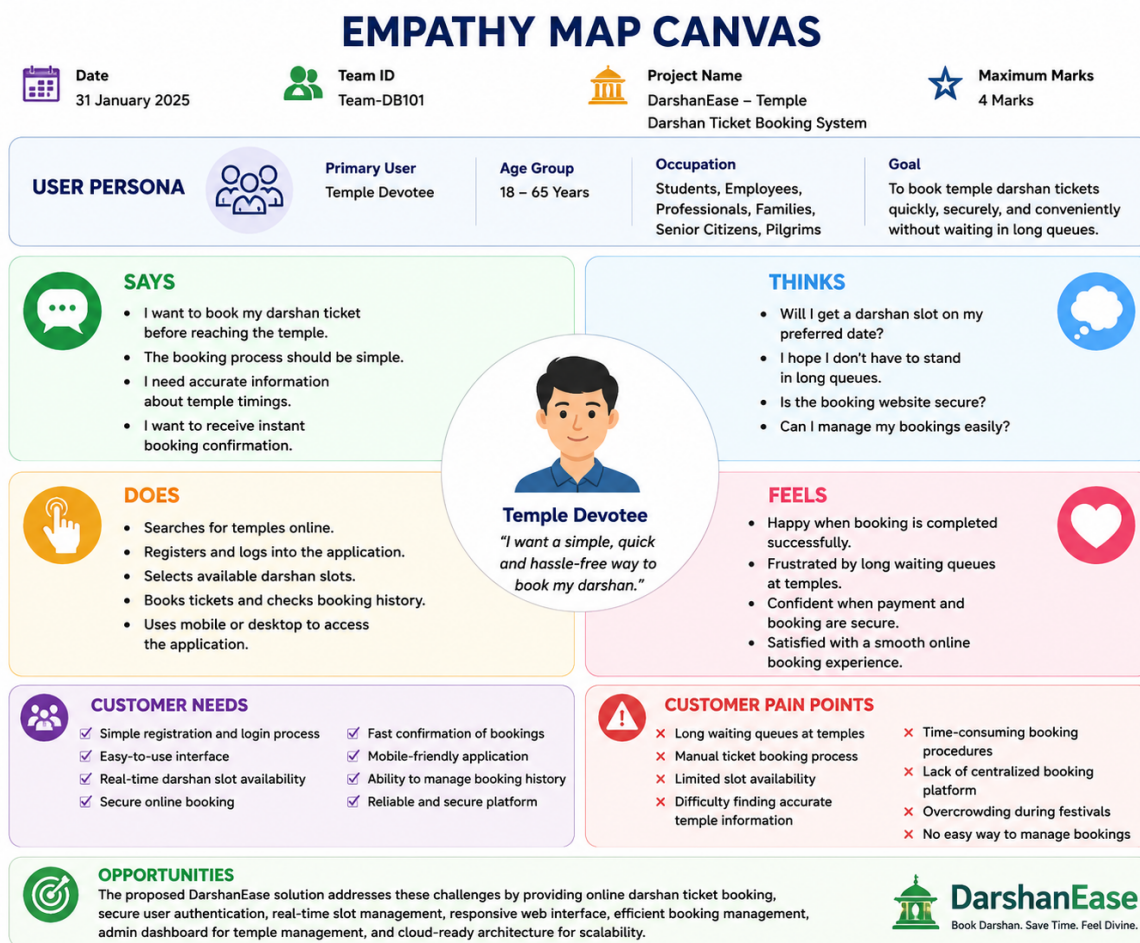

Opportunities

The proposed **DarshanEase** solution addresses these challenges by providing:

- Online darshan ticket booking.
- Secure user authentication.
- Real-time slot management.
- Responsive web interface.
- Efficient booking management.
- Admin dashboard for temple management.

- Cloud-ready architecture for scalability.

Empathy Map Summary

Conclusion

The Empathy Map helps identify the real needs, thoughts, actions, and emotions of temple devotees. Understanding these user behaviors guided the development of **DarshanEase**, ensuring the application delivers a user-friendly, secure, and efficient online darshan booking experience while reducing waiting times and improving customer satisfaction.
