Project Overview

Project Name:

DarshanEase – Temple Darshan Ticket Booking System

Project Description:

DarshanEase is a MERN Stack web application that enables devotees to conveniently book temple darshan tickets online. The system allows users to register, log in, browse temples, select darshan slots, book tickets, and manage bookings. Administrators can manage temples, users, bookings, and darshan slots through a secure dashboard.

Project Version:

Version 1.0

Testing Period:

15 March 2025 to 18 March 2025

Testing Scope

Features Tested

- User Registration
- User Login
- JWT Authentication
- Temple Listing
- Temple Details
- Darshan Slot Selection
- Ticket Booking
- Booking History
- User Profile Management

- Admin Login
- Temple Management
- Slot Management
- Booking Management
- Logout

User Stories Tested

- USN-1 User Registration
- USN-2 User Login
- USN-3 View Temples
- USN-4 View Temple Details
- USN-5 Book Darshan Ticket
- USN-6 View Booking History
- USN-7 Admin Login
- USN-8 Temple Management
- USN-9 Slot Management
- USN-10 Booking Management

Testing Environment

Application URL

`https://online-executor--25765a0517.replit.app/`

Technology Stack

- React.js
- Node.js
- Express.js
- MongoDB

Browser

- Google Chrome

- Microsoft Edge

Operating System

- Windows 11

Test Cases

Test Case	Test Scenario	Test Steps	Expected Result	Actual Result	Pass /Fail
TC-001	User Registration	Open Register Page → Enter Details → Submit	User account created	Registration successful	Pass
TC-002	User Login	Enter valid Email & Password	User redirected to Dashboard	Login successful	Pass
TC-003	Invalid Login	Enter invalid credentials	Error message displayed	Correct error displayed	Pass
TC-004	View Temple List	Open Temple Page	Temple list displayed	Temple list displayed	Pass
TC-005	View Temple	Select Temple	Temple details displayed	Details displayed	Pass
TC-006	View Booking	Select Temple	Available slots displayed	Slots displayed	Pass
TC-007	Book	Select Slot → Confirm	Booking confirmation	Booking successful	Pass
TC-008	View Booking	Open Booking History	Previous bookings displayed	Booking history displayed	Pass
TC-009	Update Profile	Edit Profile → Save	Profile updated	Profile updated successfully	Pass
TC-010	Admin Login	Login with Admin Credentials	Admin Dashboard displayed	Dashboard opened	Pass
TC-011	Add Temple	Enter Temple Details → Save	Temple added	Temple added successfully	Pass
TC-012	Edit Temple	Update Temple Details	Temple updated	Temple updated successfully	Pass
TC-013	Delete Temple	Delete Selected Temple	Temple removed	Temple deleted	Pass
TC-014	Create Slot	Add Slot Details	Slot created	Slot created successfully	Pass

TC-015	Logout	Click Logout	User redirected to Login Page	Logout successful	Pass
--------	--------	--------------	-------------------------------	-------------------	------

Bug Tracking

Bug	Bug Description	Steps to Reproduce	Severity	Status	Additional Feedback
BG-001	Form validation message alignment issue	Open Registration → Submit Empty Form	Low	Closed	UI spacing improved
BG-002	Booking page loading delay on slow internet	Open Booking Page	Medium	Closed	API response optimized
BG-003	Temple image not displayed when image path is missing	Open Temple Details	Low	Closed	Added default placeholder image
BG-004	Invalid email validation improvement	Register using invalid email	Low	Closed	Regex validation enhanced

User Feedback

Tester	Feedback
Student Tester 1	Application is easy to navigate and responsive.
Student Tester 2	Ticket booking process is simple and user-friendly.
Student Tester 3	Admin dashboard provides all essential management features.
Faculty Reviewer	Overall project implementation is satisfactory and meets the specified requirements.

UAT Summary

Metric	Result
Total Test Cases	15
Passed	15
Failed	0
Total Bugs Reported	4
Bugs Resolved	4
Critical Bugs	0
High Severity Bugs	0
Medium Severity Bugs	1

Low Severity Bugs	3
Overall UAT Status	PASSED

Approval Status:

User Acceptance Testing Successfully Completed

Notes

- All functional requirements were tested using positive and negative test scenarios.
- The application successfully met the expected functional requirements.
- Minor UI and validation issues identified during testing were resolved before final submission.
- The system is stable, secure, and ready for deployment after successful completion of User Acceptance Testing (UAT).
